We can stop HIV, Iowa—by finding the best way to prevent HIV for us!

Find a health care provider you feel comfortable talking to openly about your sexual health.

If you don't feel your regular provider can provide the best care in this area, consider finding a second provider that is knowledgeable, inclusive and affirming who will provide you the best sexual health resources.

Make prevention and testing part of your journey.

Getting tested for HIV is the only way to know your status. And knowing your HIV status helps you choose options to stay healthy!

Practice safer sex.

Internal and external condoms can prevent HIV and other STIs when used properly, and using an appropriate lubricant is also helpful! You can also choose sexual activities with a lower likelihood of passing on an infection.

Get in care. Stay in care.

If you're living with HIV, getting and keeping an undetectable viral load helps you stay healthy and prevents transmission to your sex partners.

STOP HIV IOWA

Vaccines are your best shot at prevention

1. Vaccines protect.
Vaccines protect not only yourself but also your friends, families and communities.

2. Vaccines are safe.
The United States has the safest, most effective vaccine supply.

3. Vaccines are not just for kids.
Over time, protection from childhood vaccines can wear off leaving adults at risk for diseases.
