Protect Yourself From Pneumonia

Adults age 65 and older (or people living with diabetes or lung disease) are at greater risk to get pneumonia. This lung infection is spread through respiratory droplets when an infected person coughs, sneezes, or talks.

Vaccines can help you prevent pneumonia.

Ask your healthcare provider about how you can prevent pneumonia

Time to consider a business retirement plan?

If you're a business owner, you're always thinking about the days ahead. What can I do to boost sales in the next year? What trends should I be watching? What's the forecast for my industry? But there's one element of the future you might be overlooking: your retirement plan.

Consider these advantages of establishing a retirement plan for your business:

- You'll build resources for your retirement. You might sell your business one day, but can you count on that to fund your retirement? By investing in a retirement plan for many years, you can help accumulate the resources you will need to enjoy life as a retiree.

- You can help your business attract and retain employees. In a tight labor market, you'll want to employ all the advantages you can to attract and keep good employees — and a retirement plan can help.

- You can gain tax benefits. Your contributions to a retirement plan — on behalf of yourself and your employees — can be tax deductible. Plus, you can get tax credits for starting a new plan.

Here are some retirement plans to consider:

- Owner-only 401(k) — This plan is available to self-employed individuals and business owners with no full-time employees other than themselves or a spouse. You may even be able to choose a Roth option for your 401(k), which allows you to make after-tax contributions that can grow tax free. In 2024, the combined employee and employer contribution limit was \$69,000, or \$76,500 for those 50 or older. These limits are likely to rise in 2025.

- Personal defined benefit plan — You can establish a pension plan, also known as a defined benefit plan, for yourself if you're self-employed or own your own business. For 2024, the annual defined pension benefit for a business owner cannot exceed the lesser of \$275,000 or 100% of their average compensation for the previous three highest consecutive calendar years.
- SEP IRA — If you have just

a few employees or are self-employed with no employees, you may want to consider an SEP IRA. In 2024, your contribution limit was 25% of your salary or \$69,000, whichever was less. The percentage of your salary you contribute to your SEP IRA is the same percentage of your eligible employees' salaries you must contribute to their SEP IRAs.

- SIMPLE IRA — A SIMPLE IRA is easy to set up and maintain, but while it may be advantageous for your employees, it's less generous to you, in terms of allowable contributions, than an owner-only 401(k) or a SEP-IRA. In 2024, you could contribute up to \$16,000 to a SIMPLE IRA, or \$19,500 if you are 50 or older. You must put in 2% of your employees' salaries, regardless of whether they contribute, or match their contributions dollar for dollar, up to 3% of their salaries.

And keep this in mind: The SECURE 2.0 legislation has made it possible for you to offer a Roth version of a SEP or SIMPLE IRA. Although contributions to either Roth account are not deductible, earnings and withdrawals are tax free, provided you (and your employees) are at least 59½ and have had your account at least five years.

To learn more about these and other business retirement plans, you might want to contact a financial professional. But don't wait too long — the sooner you start preparing for your retirement — and helping your employees plan for theirs — the better.

Merry Christmas & Many Thanks!

Sleigh bells are ringing,
And we're filled with good cheer,
When we think of the new friends
That we've made this year -
And we'd like to extend,
to each one of you...
Our very best wishes,
and our gratitude, too!
